

Contemporary Classic  
Sophisticated Aesthetics  
Inspiring Versatility

Stone Krete offers subtle refined colors with slight blend variations which enhance this handmade tile. Thickness, size, color, shade and surface texture will vary slightly. Color selections should be made from the latest color chips available from your dealer or distributor/sales representative. Specifications can change without notice. In addition to Stone Krete's extensive color palette custom color services are also available. Contact your dealer or distributor/representative for details.

**Approvals**

Stone Krete tile has been tested for the following performance standards: delamination, abrasive wear, modulus of rupture, bond strength, absorption, static coefficient of friction, compressive strength, breaking strength and measure size. All tests were performed according to appropriate CTI and/or ASTM test methods by Smith-Emery Company and independent engineers.

Any tile can be sealed for interior (acrylic gloss) or exterior (natural stone look). Additionally all textures can be light sandblast (sandy finish) or regular sandblast (showing the aggregate of the stone).

**Important notice**

The use of this product and its suitability is beyond the control of Stone Krete Tile Products. Liability is limited to the replacement of the product when proven defective and does not include any labor costs or other consequential or incidental damages. All Stone Krete Tile Products expressed warranties and any warranty of merchantability which may arise because of them, are limited to a period of one year from the date the product is delivered by distributor. It is the user's responsibility to determine the suitability of the product by inspecting the product prior to installation. Always follow installation and maintenance care instructions.
